All of us are on a journey, a search to discover the kind of meaning, purpose, hope, and faith that will make life worth experiencing. Unfortunately, our search has too often come up empty. But it doesn't have to be that way. Those answers that seem far too elusive can be found but not in religion or in church. A lot of us have already experienced that. We've grown up in the church or synagogue or the mosque. We've been exposed to a certain stream of religious thought or practice. Yet at the end of the day, our life is still the same. We're still left feeling like there's something more. At Encounter, we believe that "something" is actually "someone" - Jesus Christ! So if you've had enough of religion / church as you've known it and you're hungering for something more, come and encounter God with us. You'll be glad that you did!
